

Lie of the Holocaust

For one we are assuming as the figure given 6 million Jews were exterminated. That would mean 100,000 tonnes of weight for one million. So hence $6 \times 100,000 = 600,000$. According to, <https://pubmed.ncbi.nlm.nih.gov/9718667/> (The degree of destruction of human bodies in relation to the duration of the fire), it would take 2-3 hours to completely burn to ashes an adult human body. So do the mathematics here. 6 million people $\times$ 2 hours = 12 million hours = (approximately) 1,369 years spent burning that amount of bodies. *According to calculations by the German authorities, 340 corpses could be burned every 24 hours after the installation of the three furnaces.* See: <https://www.jewishvirtuallibrary.org/crematoria-and-gas-chambers-at-auschwitz-birkenau>

Given each corpse would require 2 hours to burn completely into ashes that would be $340 \times 2 = 680$ hours, far more than 24 hours. They'd need to have 340 separate ovens each cleaned within seconds for the next corpse to burn. How many ovens in fact did they have? Hypothetically they had 6 crematoriums and say they had a dozen furnaces in each one. That would account for 72 total furnaces. 72 furnaces $\times$ 2 hours / corpse would equal out to be 36 corpses per hour. Accounting for hypothetically 840 corpses in 24 hours. Fitting this figure. Yet other accounts state 1,440 corpses per 24 hours PER crematorium adding even more impossible to time within 24 hours bodies to dispose of. Still not fully adding up here?

Additionally, there is a scientific claim by proponents of the Holocaust theory that people were killed by Zyklon B – a noted delousing agent during times of typhus and lice – that is still active under room temperature with German Concentration Camp Guards entering the chambers without protective gear and even smoking in them after an alleged gas session whereupon if this were true they themselves would be poisoned or the canisters of certain chemicals being explosive would ignited.

Additionally the censuses given in Europe gives a figure of three million Jews in Europe during the time of the alleged exterminations. So were did an additional 3 million come from? The Allies themselves are yet blameless for: things as the [atomic bombs](#) dropped on Japanese cities, the [air raids](#) of predominantly civilian towns such as [Dresden](#), and the Allies' own human-rights abuses. And this Holocaust Mythos was used to create the state of Israel. Which today is racial segregationist i.e. just like Jim Crow Law America, and also committing genocide against Arabs and occupying land which belongs to Palestine not Jews!

In regards of eye-witness accounts such as Anne Frank's Diary:

The true author of the diary was a man, Meyer Levin. He demanded payment for his work in a court action against Anne's father, Otto Frank. Meyer Levin was awarded \$50,000 and the matter was resolved quietly.

In 1980, as a result of a lawsuit in a German court, the German state forensic bureau (Bundes Kriminal Amt [BKA]), forensically examined the original "diary" manuscript. The analysis determined that "significant" portions of the work was written with a fine ballpoint pen. Fine ballpoint pens were not available before 1951; portions of the work was [sic] added well after the war (Anne Frank died in March 1945).

And Night:

Elie Wiesel passes for one of the most celebrated eyewitnesses to the alleged Holocaust. Yet in his supposedly autobiographical book *Night*, he makes no mention of gas chambers. He claims instead to have witnessed Jews being burned alive, a story now dismissed by all historians. Wiesel gives credence to the most absurd stories of other “eyewitnesses.” He spreads fantastic tales of 10,000 persons sent to their deaths each day in Buchenwald.

When Elie Wiesel and his father, as Auschwitz prisoners, had the choice of either leaving with their retreating German “executioners,” or remaining behind in the camp to await the Soviet “liberators,” the two decided to leave with their German captors.

Yet to deny the Holocaust is to commit in several Western countries a crime punishable by up to five years imprisonment.
